Miss MINNIE S. LEWIS,

In announcing, in Harrisburg, a Classical Institute, the principals are sensible of the difficulties inevitable at a time of general business depression. Convinced, however, that the enterprise is, even now, timely and important, and that Harrisburg is a pre-eminently fit location, they accept the work in the faith that an enlightened public will give it substantial recognition, and that, in due time, broad and liberal plans may be successfully adopted.

For immediate use temporary accommodations have been secured at No. 12 Market Square, where the opening term will commence on WEDNESDAY, the 30th of AUGUST, 1876.

Boarding Students, not provided for among friends, will be under the direct supervision of and intimately associated with the Principals.

An aroused American sentiment, and what is most sacred in our National inheritance, demands for the youth of the country an unmistakably Christian culture. This is the supreme and ruling purpose of the Principals.

\*Prof. Wilbur is at present fulfilling another engagement. The duties of his department, until he can assume them, will be performed by others.

## GENERAL REMARKS.

As promptness and regularity are necessary to success, students should be present promptly at the beginning of the term, and regularly present at each recitation. No student received for less than a term, unless by special arrangement, except those entering in the middle of the Term. The discipline will be eminently Christian. Every student must be polite, orderly and studious. No disorderly student will be tolerated. A daily record of recitations and deportment will be kept, and reports made out every half term and sent to parents. Parents are earnestly requested to note and comment upon these reports, and thus add incentive to the studiousness of their children. Co-operation upon their part is indispensable to success. Examinations will be held at the close of each term, at which there will be present a committee appointed for the purpose. All students must be present on these occasions, unless excused.

Lectures upon Physiology, Philosophy, Chemistry, Antiquities and Literature will be delivered during the year.

The presence of all students will be required at the opening religious service of each day. During the sessions of the day studies may be prepared by resident students in the recitation hall or at their houses, as parents may desire.
